Children's Bureau

september 1963

This is the seventh revision of the Children's Bureau publication Directory of Public Training Schools Serving Delinquent Children. The 275 institutions listed are State and local training schools, camps, and reception-diagnostic centers reported as serving delinquent children committed by the courts of the fifty states, the U. S. Department of Justice, the District of Columbia, Puerto Rico and the Virgin Islands.

In addition to the list of institutions, this publication also carries up-to-date identifying data, such as their rated capacities, average daily populations, and the central administrative agencies.

We wish to express our appreciation to all who have cooperated so willingly in providing the information included in this compilation.
